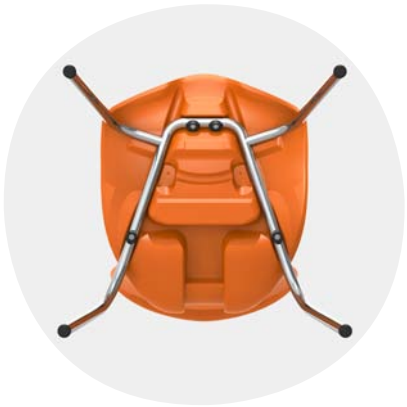
7874 Flex | plastic shell

Seat with integrated ventilation channels without holes preventing mold in the interior



Extremely robust four-legged frame with 2.5 mm wall thickness

Easy to carry due to light weight

Up to 5 chairs stackable

Available in many bright colours

4-legged

The ergonomically shaped plastic shell made from recyclable PP is equipped with easy to clean A2S-surface structure. Its shape allows different seating positions.

The robust 4-legged frame of micro alloy steel ensures stability. It is chrome- plated or powder coated, available in many attractive colours.
